

PLANTS POISONOUS TO GOATS

Compiled by Laura Hradec, DVM

The doctors of Pilchuck Veterinary Hospital are dedicated to the health and well being of your goat. For this reason, we have compiled the following list to help inform you of some of the plants that are toxic to goats. If you suspect your goat has ingested any of these plants, please contact us immediately. The symptoms of toxicity may vary from plant to plant, and with each individual animal. All of the plants listed below are potentially harmful.
